

Hungary solar saver

How much solar power does Hungary have?

It takes the country's total solar capacity to more than 5.6 GW. Preliminary figures from transmission system manager MAVIR states Hungary's total solar capacity equate to 3.3 GW of industrial solar power plants and 2.3 GW of household-sized installations. Hungary posted growth in terms of large-scale and residential solar capacity last year.

What is the largest solar project in Hungary?

Duna Solar Park is located in Central Hungary in Pest County, near Székesfehérvár, and is the largest solar project in the region. Like Kaba Solar Park, the MET group built it, and together the two solar projects have a capacity of over 50 MW. Built in 2019, Székesfehérvár Solar Park has a capacity of 16.5 MW and is the largest solar project in its county.

How much solar power will Hungary produce in 2022?

Relatedly, solar power produced 12.5% of the country's electricity in 2022, up from less than 0.1% in 2010. In 2023, the country's Minister of Energy, Csaba Lantos, predicted Hungary's target for 6,000 MW of PV capacity by 2030 would likely be exceeded twice over, hitting 12,000 MW instead.

What happened to Hungarian solar power plants?

In October, the Hungarian government introduced a provision for small, household-sized solar power plants that fundamentally transformed the Hungarian solar market. Since Oct. 31, the aforementioned, sub-50 kW, grid-connected household systems could no longer have a grid connection and could only be used for self-consumption.

How to supercharge Hungarian solar?

To supercharge Hungarian solar, in addition to network investment and clearer regulation, the nation needs local manufacturing. My company, Astrasun Solar, has signed an agreement with Hungarian conglomerate Muszertechnika-Holding and its vehicle-chassis manufacturing operation IK Metál to produce solar mounting structures.

Are Hungarian solar projects eligible?

Even then, eligible projects must fulfill "exemption conditions" which lack transparency. In October, the Hungarian government introduced a provision for small, household-sized solar power plants that fundamentally transformed the Hungarian solar market.

Hive Solar Saver offer is available to customers who accept a quote for a Hive solar and/or battery installation from the 22nd May 2024.
