

Who is Uniper energy storage?

As one of Europe's largest gas storage operators, Uniper Energy Storage ensures that energy is available flexibly whenever it is needed. As an independent company, we offer access to 9 underground gas storage facilities in Germany, Austria and the UK with a total capacity of 80 TWh, which are connected to four market areas.

Who is Uniper energy storage Austria?

Uniper Energy Storage Austria is the Austrian branch of Uniper Energy Storage GmbH, based in the heart of Vienna. It was founded in April 2011 and represents Uniper Energy Storage in the Austrian energy market. It maintains contacts with its local customers, market partners and government agencies.

How does Uniper energy storage work?

Uniper Energy Storage uses salt caverns, for example, which can be up to 700m high - about twice as high as the Eiffel Tower. The gas can be stored there safely and efficiently over a long period of time. We explore innovative ways to optimize our existing assets and to drive the transformation towards carbon neutrality.
