What is the Palau solar battery project?

The Palau Solar Battery Project will be the largest such project in the Western Pacific. It will lessen Palau's imported fuel dependency, a major step towards its ambitious goal of 100%.

Is Palau a sustainable country?

Overview The pristine island nation of Palau is small yet proud, standing as a bright beacon of sustainability in the vast Pacific Ocean. As a small island developing state, the Republic of Palau sought to wean itself off its dependence on fossil fuel for power, which accounts for 99.7% of the country's power generation.

How challenging is a project in Palau?

"With a project in a location as unique as the Republic of Palau, the jurisdiction itself is challenging as the project engineering codes and local requirements are very specific," DNV energy systems project manager Michael Niu said.
