

L'inverter a batteria STORAGE 3Power Serie HV è un inverter per accumulo, trifase, bidirezionale che può essere utilizzato in sistemi connessi alla rete e stand-alone con batterie che hanno bisogno di funzionare fino a 1.500 Vdc. Questo inverter a batteria unico nel suo genere raggiunge una densità di potenza leader di mercato di 490 kW/m³; ...

The DC-DC Series of the INGECON'SUN STORAGE Power family is a bi-directional DC-to-DC converter designed to operate in combination with DC-to-AC solar PV inverters. Thus, it is intended to create DC-coupled solar-plus-storage systems. Besides, it features the same technology as Ingeteam's PV inverters, facilitating the supply of spare parts.

INGECON SUN STORAGE 100TL è un inverter trifase senza trasformatore in grado di fornire 100 kW di potenza nominale fino a 50°C di temperatura ambiente. Accessori e Comunicazione. HARDWARE DI COMUNICAZIONE. Molteplici opzioni per comunicare con inverter FV da PC, tablet o smartphone.

The STORAGE 3Power C Series is a three-phase bidirectional storage inverter that can be used in grid-connected and stand-alone systems. This one-of-a-kind battery inverter achieves a market-leading power density of 470 kW/m³, as it provides up to 3,660 kVA in just one power stack with a battery voltage range up to 1,300 Vdc.

El Inversor H;brido Ingeteam Ingecon Sun Storage 3TL M, trabajando en modo aislado, es compatible con cualquier generador auxiliar, ya sea de gasolina o diesel, incorpora un cargador de baterías que permite cargarlas a través del generador cuando estas están completamente descargadas y también un contacto libre de potencial que puede ...

The INGECON SUN STORAGE Power B Series inverter is a three-phase bidirectional storage converter that can be used in both, grid-connected or stand-alone systems. It features string inverter philosophy applied in its design. The input and output lines are integrated into the same cabinet, in order to make maintenance work easier. ...

The photovoltaic and battery storage sector and the electric vehicle charger business will showcase their latest technological developments to the glo... Ingeteam signs a contract with Grenergy to supply 250 MW of solar power in the emblematic Tabernas desert

The INGECON'S SUN STORAGE 1Play TL M inverter generates a stand-alone AC grid and acts as a grid manager, guaranteeing the correct balance between PV generation, consumption and the storage system. It is equipped with a relay for the neutral to earth connection of the system loads in order to create a TT stand-alone network. Moreover, the ...

The INGECON'S SUN STORAGE Power features a highly advanced battery control technology, ensuring the maximum life of the storage system. The battery temperature could be controlled at all times ensuring an enhanced lifespan of the accumulator. This converter is 100%

The INGECON SUN STORAGE 100TL is a three-phase transformerless battery inverter that can provide 100 kW of rated power up to 50 °C of ambient temperature. Totally equipped The inverter is equipped with Wi-Fi and Ethernet communications as standard, as well as all the main electric protections: DC & AC surge arresters (type II), DC switch and ...

El Inversor trifásico SUN Storage 3Play 100TL Ingecon es un inversor de baterías bidireccional con una potencia de salida de 100kW. Es la solución perfecta en sistemas industriales, para que la producción solar que no se consume directamente se pueda acumular en baterías de litio y utilizarse en otro momento del día.

SUN STORAGE Notas: (1) La tensión máxima de baterías (627 V) se ha calculado para $V_{redmax} = 1,085$ Rendimiento INGECON'S SUN STORAGE 100TL $V_{dc} = 627$ V p.u. y $\cos \phi = 1$. Si V_{redmax} es diferente a este valor, la tensión máxima de baterías debe calcularse como: $V_{batmin} = 627 * V_{redmax} / 1,085$ (2) El inversor no entra en funcionamiento hasta que $V_{dc} < 1.000$ V (3)
