

Ingecon sun storage TÃ¼rkiye

What are the features of ingecon Sun monitor?

Extended technical information Up to 13.5A of maximum input PV current along all the MPPT voltage range. CAN Bus 2.0 communication for the batteries' BMS (battery management system). Suitable for indoor and outdoor installation (IP65). Free software INGECON SUN Monitor for system monitoring.

What is ingecon solar monitor?

Free software INGECON SUN Monitor for system monitoring. It can operate as a pure solar inverter, allowing to add the batteries at a later stage. Modbus TCP /Wi-Fi communication with single-phase EV chargers. Configuration of the battery charge /discharge times. Relay for the neutral to earth connection for critical loads in TT systems.

How can ingecon Sun monitor be monitored?

Thanks to the built-in EMS, the installation can be monitored at all times via a PC or mobile phone with the free INGECON SUN Monitor application, available at Play Store and App Store. Extended technical information Up to 13.5A of maximum input PV current along all the MPPT voltage range.

The INGECON SUN STORAGE 1Play (hereinafter, ISS 1Play) is a dual DC input (photovoltaic and battery) single-phase inverter capable of working in stand-alone or grid-connected modes. This equipment can be used in the following type of installations: x Stand-alone installations

The Full Skid power station INGECON SUN FSK is equipped with everything necessary: solar PV inverters (INGECON SUN 3Power C Series), LV/MV power transformer, low voltage cabinet, MV switchgear and auxiliary services transformer. The most optimised logistics. This Full Skid solution has been specially conceived for its optimised transport logistics.

The application INGECON SUN Monitor is already available for iOS and Android in order to facilitate the PV plant access from any Smartphone. It also enables to monitor self-consumption systems, with or without batteries. Thus, it allows for energy consumption, generation and storage system monitoring.

The INGECON® SUN STORAGE Power is a three-phase bidirectional battery inverter that can be used in grid-connected and standalone systems. This inverter offers a highpower density in a single power block, providing different configurable operating modes. Besides, it features the same technology as Ingeteam"s PV

inverters, facilitating the supply of spare parts. Easy ...

INGECON SUN STORAGE 100TL è un inverter trifase senza trasformatore in grado di fornire 100 kW di potenza nominale fino a 50°C di temperatura ambiente. Accessori e Comunicazione. **HARDWARE DI COMUNICAZIONE.** Molteplici opzioni per comunicare con inverter FV da PC, tablet o smartphone.

The DC-DC Series of the INGECON® SUN STORAGE Power family is a bi-directional DC-to-DC converter designed to operate in combination with DC-to-AC solar PV inverters. Thus, it is intended to create DC-coupled solar-plus-storage systems. Besides, it features the same technology as Ingeteam's PV inverters, facilitating the supply of spare parts.
