With a properly sized 40 kW solar system, you can expect to save around £5672 per year by using your own solar energy. 40 kW Solar Panel System Price. An 40 kW solar system (without a battery) typically costs around £50000 in the UK. That's including installation and VAT. You can get a free quote from Honest Quotes to get an exact price.

Solar power represented only a very small part of electricity production in the United Kingdom (U.K.) until the 2010s when it increased greatly. The sudden and rapid increase of solar power can be attributed to the fact that most of the new installations in that decade were subsidized with a feed-in tariff (FIT), as well as the fact that the cost of photovoltaic panels was -- and has been ...
