

De Alfa Laval E-PowerPack maakt gebruik van Organic Rankine Cycle (ORC)-technologie om restwarmte om te zetten in gratis elektrische energie, waardoor het een handige duurzaamheidsupgrade is met een meetbare impact op de energie-efficiëntie. Omdat het op de lage temperatuur van het motormantelwater vaart, kan uw schip continu stroom opwekken ...

It provides up to 15 years (or 120,000 hours) of service life before overhaul is needed. From installation and throughout the E-PowerPack life cycle, Alfa Laval Marine Service experts are ready to support you. Worldwide and 24/7, Alfa Laval Marine Service is your path to greater uptime, optimized performance and true peace of mind.

Gasketed plate-and-frame heat exchangers Alfa Laval doesn't do average. Whether it is our multi-purpose Industrial range; the Semi-welded industrial range for refrigeration and exacting processes; the Hygienic range for food, beverage and pharma applications; or the Specialized range for condensation, evaporation and fibrous media - you buy into reduced cost of ...

The E-PowerPack launched on the 5th of April with a special webinar broadcasted from the Alfa Laval Test & Training Centre. During the webinar, viewers can learn about the product and its use of Organic Rankine ...

Alfa Laval E-PowerPack_Product leaflet_EN.pdf 2024-05-17 198 kB. Service. Alfa Laval's maritime tjenester. Med sin dobbelskruekompressortechnologi gir E-PowerPack langsiktig pålitelighet og holder vedlikeholdet på et minimum. Den gir opptil 15 år (eller 120 000 timer) driftstid før overhaling er nødvendig. Fra installasjon og gjennom hele E ...

Now the first of many new energy solutions is coming to fruition: the Alfa Laval E-PowerPack. Able to convert waste heat directly into electrical power, the E-PowerPack reduces fuel consumption and CO₂ emissions - creating a simple, cost-saving tool for complying with new sustainability requirements.
