

Ireland energystore limited

Could energy storage be possible in Ireland?

The International Energy Research Centre's (IERC) Executive Director Tony Day discusses the potential for energy storage in Ireland. The Cork-based IERC was established as a centre of international excellence in integrated energy systems research. The organisation conducts research in energy efficiency and low carbon energy delivery.

What are the different types of energystore products?

Here are our 3 primary products: 1. energystore TLA; It combines eps beads coated in an innovative additive with cement to create non-combustible, pourable insulation for floors and roofs. 2. energystore superbead; These superbeads can be injected into multiple cavity wall scenarios and beneath your Beam & Block floors.

What makes energystore a good company?

The safety of our team is always our focus. We take our teams wellbeing very seriously and that applies to their physical and mental wellbeing. We promise to treat our customers as we would expect to be treated ourselves. Excellence is what drives energystore.

What is energystore superbead?

energystore superbead is the most environmentally friendly insulation, typically saving 26 tonnes of CO2 emissions. We issue a 25 year guarantee for CWI installs in existing homes, providing further reassurance of our quality work. Our experts can help you determine if your home would benefit from a CWI extraction.
