

Ireland franklin wh battery

How efficient is a franklinwh battery?

The FranklinWH battery has a roundtrip efficiency of 85 percent; this means that for every 10 kilowatt-hours (kWh) of electricity you put into the battery, you'll receive 8.5 kWh of output. In most cases, homes with an aPower will charge and discharge their battery every day. So, how long do FranklinWH batteries last?

How many kilowatts is a franklinwh battery backup system?

This powerful battery backup system provides up to 15 kilowatts of continuous power, ensuring that your home remains fully operational during power outages or emergencies. Designed to meet homeowners' future needs today, FranklinWH Home Power goes well beyond the demand for safe, reliable backup.

Does a franklinwh battery deteriorate?

The battery life of your FranklinWH will deteriorate in the same way, and that isn't an indicator of a product flaw. All batteries lose some of their ability to hold a charge over time after extended usage, whether it's an electric vehicle battery, a home energy battery, or a rechargeable AA battery.

How long do Franklin WH batteries last?

In most cases, homes with an aPower will charge and discharge their battery every day. So, how long do FranklinWH batteries last? The aPower comes with an impressive 12-year, 6,000 cycles, or 43 MWh throughput warranty (whichever comes first).

How much does the franklinwh home power solution cost?

As an estimate, you can expect the FranklinWH Home Power Solution (including both the aPower and the aGate) to cost about \$10,000. If you want to install the Home Power Solution as part of a solar-plus-storage system, battery costs are just one part of the equation.

Does franklinwh offer a warranty?

All batteries lose some of their ability to hold a charge over time after extended usage, whether it's an electric vehicle battery, a home energy battery, or a rechargeable AA battery. This is why FranklinWH offers a warranty that guarantees a certain percentage of storage capacity.
