

Are Glasdon electrical enclosures IP56 rated?

Glasdon electrical enclosures are designed and manufactured to the highest standards and offer an IP56 rating. With bespoke and standard size units available, we can provide the ideal outdoor electrical enclosure cabinet for your application.

Are Citadel cabinets IP56 rated?

The cost-effective Citadel(TM) range is also IP56 rated and offers five industry standard sizes for a quick turnaround and installation. Manufactured in plastic coated steel with a 2mm stainless steel chassis, all-round double skinned insulation and a reinforced door, Citadel cabinets are strong, weatherproof and resilient.

Why do Irish companies use GRP electrical enclosures?

This is why Irish companies have been using Tricel's GRP electrical enclosures for over 40 years. Ideal for outdoor usage, GRP enclosures keep dust, dirt, and water out and ensure your equipment is kept safe. Made of Glass Reinforced Polyester (GRP), they are extremely hard-wearing, weather-resistant, durable, and great value for money.

Will not corrode, weather-resistant to IP55 grade protection. Strong and robust Non-conductive: Ideal for protecting internal electronic communication. Double insulation and electrically non-conductive (1000V). Suitable for low-voltage switchgear and control gear assemblies, meters, compressors, etc. Strong & Durable:

The 800 x 600 IP66 electric cabinet Those are ideal to protect meters, equipment, instrumentation, compressors, etc from the outside (rain, dust, etc). Examples of possible usage include: indoors in factories or outdoors, pole-mounted for street lighting.

With bespoke and standard size units available, we can provide the ideal outdoor electrical enclosure cabinet for your application. The cost-effective Citadel(TM) range is also IP56 rated and offers five industry standard sizes for a quick turnaround and installation.
