

Isle of Man instore power provider

Who supplied electricity to the Isle of Man?

The Douglas Corporation and the Isle of Man Electricity Board were the sole suppliers on the island, apart from small areas supplied by the Manx Electric Railway Company. By the mid-1950s the Pulrose power station of the Douglas Corporation had a total generating capacity of 15.475 MW. This comprised the following plant: Coal-fired boilers:

What is the Isle of Man Electricity Board?

The Isle of Man Electric Light and Power Act 1932 as amended by the Isle of Man Electric Light and Power Amendment Act 1935 established the Isle of Man Electricity Board with the authority to supply electricity throughout the Isle of Man but excluding Douglas and the Howstrake Estate.

When did the Isle of Man become part of the Utilities Authority?

In 2014 it became part of the Manx Utilities Authority when it was merged with the Isle of Man Water and Sewerage Authority. Following the First World War the development of utilities on the Isle of Man was considered essential.

Does the Isle of Man need a new interconnector?

Balancing the Isle of Man's electricity network requires stabilising power; this cannot be provided from sources which are reliant on the weather to produce electricity as these sources cannot be guaranteed at all times. In all scenarios the most cost-effective solution of providing this stabilising power is a new interconnector to the UK.

How will the electricity sector change in the Isle of Man?

As the uptake for electric heating and electric vehicles increases, the electricity sector will have to grow to meet future demand. The majority of the Isle of Man's electricity is currently sourced from fossil fuels.

Does the Isle of Man import energy from the UK?

The Isle of Man currently imports all of its energy from the UK (with the exception of what is produced from Sulby). In all future models, the Isle of Man remains dependent on GB for the provision of baseload. This is the case even where capacity is increased by building excess renewables, as the stabilisation is still provided by interconnectors.

I am the Head Coach of Ripon City Netball Club and we have just returned from a tour to the Isle of Man. We had a great time at the netball, even winning the Fair Play Award - but our weekend was absolutely made by the inimitable Ged who totally went the extra mile (pun intended!) to entertain us with his knowledge of the Island and some of its history.
