

Why is the Solar Energy Association of Ukraine important?

As the last 2 years have shown, Ukrainians still have to fight for their right to clean energy, so the Solar Energy Association of Ukraine has a public duty to be a place of public opinion and unification of responsible business environment for the inevitability of our state's course to clean and safe renewable energy.

Is solar a good option in Ukraine?

Solar on residential rooftops is popular for saving on electricity bills, which rose in the mid-2020s. Solar is also suitable for many small and medium-sized enterprises. Households in Ukraine tend on average to have larger rooftop solar PV systems than in other countries.

What percentage of Ukraine's solar power is destroyed?

Some 13% of Ukraine's solar generation capacity is in territories controlled by Russian forces while around 8% is considered damaged or completely destroyed. This is according to reports from Oleksiy Orzhel, the recently appointed chairman of the Ukrainian Renewable Energy Association, who has cited official statistical data.

How has Russia impacted Ukraine's solar power industry?

From pv magazine 06/23 The Ukrainian solar power industry has sustained huge losses during the 15 months of fierce hostilities that have followed Russia's invasion, including almost daily barrages of rocket strikes, kamikaze drone attacks, and artillery shelling.

Can solar power be expanded in Ukraine?

Solar and wind power in Ukraine could be greatly expanded to meet much of the country's electricity demand. In 1985 there was SPP-5 [uk] (SES-5,5MW), first and last build solar station in Soviet Union near town of Shcholkin in Crimea. It was stopped in 1990s and demolished afterwards. In 2011, 90% of electricity came from nuclear and coal.

How much do Ukrainian businesses pay per kWh?

Ukrainian businesses pay, on average, roughly UAH 5.50/kWh (\$0.15) of electricity. During outages, this figure jumped nearly twofold, making the rationale behind investing in alternative power generation sources as clear as ever. Last summer, Cherkasy-based building company Dobrobut installed a solar plant to meet its energy requirements.
