

Ivory Coast datasafe hx 300

Are datasafe HX+ batteries eco-friendly?

With electricity costs and data center energy demands on the rise, the Uninterruptible Power Supply (UPS) industry is looking for innovative, eco-friendly power management solutions. DataSafe HX+ batteries deliver them for a range of mission-critical power back-up applications. Request a Quote

Can datasafe HX batteries be installed on a base?

DataSafe HX top terminated batteries are designed to be installed on their base. Consult your local EnerSys® dealer before installing in any other orientation 2014 EnerSys. All rights reserved. Trademarks and logos are the property of EnerSys and its affiliates unless otherwise noted.

How long can a datasafe HX battery be stored?

The electrolyte is absorbed within this material Storage time: DataSafe HX top terminated batteries can be stored for up to 6 months at 77°F (25°C) before a freshening charge is required. At higher temperatures this time interval will be reduced

What is a datasafe HX monobloc?

apt of standby power. This technology provides the user with the freedom to use lead acid batteries in a wide range of applications. Built on advanced electrochemistry and backed by over 125 years experience in battery technology and manufacture, DataSafe HX monoblocs have been specifically developed for high discha

What is the initial discharge capacity of the HX 12hx300?

The HX 12HX300 has 100% initial discharge capacity. The addition of an EnerSys Front Terminal DataSafe cabinet allows for higher energy density.

For rack installations, reference Assembly Instructions for DataSafe HX and HX Front Terminal UBC Battery Racks (US-HXRACK-IM). For cabinet installations, reference DataSafe® HX Battery Cabinet Systems Range Summary (AM-DSCAB-RS). If provided, intercell connector covers should be installed after completing the intercell connections. BCI ...

DataSafe® HX batteries are supplied in a fully charged state and must be unpacked carefully to avoid very high short-circuit currents between terminals of opposite polarity. Use care when handling and moving batteries. Appropriate lifting equipment must be used. Keep flames away In case of accidental overcharge, a flammable gas can leak off ...

Batterie DataSafe®; HX Grazie alla tecnologia al piombo-acido regolata da valvole (VRLA), le batterie DataSafe®; HX offrono soluzioni ottimali per una serie di gruppi di continuità (UPS) e applicazioni IT. Le batterie combinano diverse caratteristiche di progettazione selezionate per massimizzare l'affidabilità; e la durata, garantendo allo stesso tempo elevate prestazioni a ...

The DataSafe®; HX top terminal battery range of Valve Regulated Lead Acid (VRLA) batteries has ... (1.300 SG) Battery Model Nominal Voltage (V) 8 hr rate to 1.75 volts/cell end voltage at 77°F (25°C) @ 15 min rate to 1.67 volts/cell end voltage at 77°F (25°C) Length Width Overall* Height

The DataSafe®; HX range of Valve Regulated Lead . Acid (VRLA) batteries has been designed to offer . superior solutions for the Uninterruptible Power Supply (UPS) and Information Technology markets. DataSafe HX batteries are the ideal source of power to protect vital systems and incorporates select design features that maximise reliability while

DataSafe®; HX+ Batterien Angesichts der steigenden Stromkosten und des steigenden Energiebedarfs in Rechenzentren suchen Anbieter unterbrechungsfreier Stromversorgung (USV) nach innovativen, umweltfreundlichen Lösungen für das Energiemanagement. DataSafe®; HX+ Batterien eignen sich für eine Reihe von missionskritischen Notstromanwendungen.

Ivory Coast, also known as Côte d'Ivoire [a] and officially the Republic of Côte d'Ivoire, is a country on the southern coast of West Africa s capital city of Yamoussoukro is located in the centre of the country, while its largest city and economic centre is the port city of Abidjan borders Guinea to the northwest, Liberia to the west, Mali to the northwest, Burkina Faso to the ...

Batteries DataSafe® HX Équipées de la technologie VRLA (Valve Regulated Lead Acid, batteries au plomb régulées par soupape), les batteries DataSafe ® HX représentent d'excellentes solutions pour différentes applications d'alimentation sans interruption (ASI) ou informatiques. Elles combinent plusieurs caractéristiques de conception qui optimisent leur fiabilité et leur ...

DataSafe HX Batterien sind wartungsfreie, verschlossene Bleibatterien, die speziell für den Einsatz in unterbrechungsfreien Stromversorgungsanlagen (USV-Anlagen) und in der Informationstechnologie entwickelt wurden. Die Konstruktion verbindet eine hohe Leistungsdichte mit hervorragender Zuverlässigkeit und langer Gebrauchsdauer, 10 Jahre plus nach Eurobat.
