

April 3 (SeeNews) - Irish renewable energy company Gaelectric on Thursday said it has acquired a 46-MW wind project in the county Kerry, Ireland from German wind turbine maker Enercon GmbH. ... Energy Storage. Offshore Wind. Hydrogen. Other Renewables. ... Wind turbine near the coast, Ireland. Author: Harry Pears. License: Creative Commons ...

Gaelectric announces that it has submitted the planning application and Environmental Impact Assessment (EIA) for Project-CAES Larne NI - the 330 MW compressed air energy storage project which the com. . . . . Salt deposits suitable for CAES are a unique geological feature of parts of the east Antrim coast. Stored energy can be released to ...

Ivory Coast, also known as Côte d'Ivoire [a] and officially the Republic of Côte d'Ivoire, is a country on the southern coast of West Africa s capital city of Yamoussoukro is located in the centre of the country, while its largest city and ...

Renewable energy and energy storage group, Gaelectric, has officially opened its €13.4million wind farm at Cloonty in Co. Antrim. ... The Mayor of Causeway Coast and ...

Ivory Coast's Minister of Mines, Petroleum and Energy, Mamadou Sangafowa Coulibaly, has announced the country's plans to fast-track the development of gas reserves in Blocks CI-523 and CI-525. The aim of these plans is to strengthen the resilience of the local electricity market through the provision of gas-fired power generation.

As part of its drive to diversify electricity generation sources and increase the share of renewable energies in its energy mix (45% by 2030), Ivory Coast commissioned RMT to build the country's very first photovoltaic ...

energy developers have and are being identified, we wish to indicate that Gaelectric Energy Storage's Project-CAES Larne NI has been subject to a European and Member State wide selection process under EU Regulation on guidelines for trans-European energy infrastructure [COM/2011/658] and the Regulation on the Connecting Europe Facility

Articles discussing Ivory Coast Energy. Narcisse Godrin-Kouadio nous parle de l'internationalisation de Valsch Consulting en Afrique de l'Ouest et partage sa volonté de voir le groupe devenir une référence en termes de conformité, de certification, de contrôle, de QoS et de QoE, non seulement en Côte d'Ivoire, mais également dans l'ensemble de la sous-région.

About Gaelectric - Gaelectric is a privately-held renewable energy group specialising in the development and

operation of renewable energy assets and energy storage projects, and the provision of energy market solutions and services to business. Since its establishment in 2004, Gaelectric has developed an extensive

Source: Gaelectric. Irish energy storage firm Gaelectric has been awarded an additional €8.28 million in European Union (EU) funding for its compressed air energy storage (CAES) project in Northern Ireland. The funding comes from the EU's Connecting Europe Facility (CEF).

GREAT FALLS, Mont., March 25, 2013 /PRNewswire/ -- Renewable energy generation and energy storage group, Gaelectric, has raised \$84 million in funding for its portfolio of on-shore wind energy ...

Renewable energy and energy storage group, Gaelectric, has officially opened its €13.4million wind farm at Cloonty in Co. Antrim. ... The Mayor of Causeway Coast and Glens Borough Council, Alderman Maura Hickey, added that the wind farm will greatly enhance the amount of green energy already produced in the region. As well as this, it will ...

UK-based renewable energy group Gaelectric has received a further EUR8.28m in funding from the Connecting Europe Facility (CEF) of the EU to develop a 330MW energy storage project in Northern Ireland. ... are located at depths of nearly 1.5km below ground level at the northern end of the Islandmagee peninsula on the east coast of Northern ...

Gaelectric's 330-MW energy storage project gets EUR 8.3m from EU Image by Gaelectric (). Gaelectric's compressed air energy storage (CAES) project near Larne in Northern Ireland has received a "major boost" as it has been awarded EUR 8.28 million (USD 9.1m) in additional EU financing, the Irish renewable energy company said Monday.

Keith McGrane, Head of Gaelectric's Energy Storage Division added: "The Larne CAES Project will see the development of a flexible bulk energy storage plant that will allow for better and more cost effective management of electricity generation in Northern Ireland. It will enhance energy security whilst facilitating the target of achieving 40% ...

Irish renewable energy group Gaelectric has partnered with internationally recognized French floating offshore wind leader, Ideol, to develop floating offshore wind energy projects in Irish waters using Ideol's patented "Damping Pool" technology. Gaelectric and Ideol are investigating several sites in Irish waters for both short term pre-commercial and long term ...
