As part of ENGIE, a global leader in low-carbon energy and services, we're joining forces to expand our capabilities and better support the energy transition across the UK and Ireland. ENGIE's mission is to drive decarbonisation, providing sustainable energy solutions that meet the demands of regional authorities, companies, and individuals ...

The good news regarding the UK's energy consumption is that it has been going down steadily since 2005, with 2020 being the lowest year for energy consumption since the 1950s according to a recent government report. Britain is also generating more and more power through renewable sources. The bad news, as everyone will

Ixora Energy Ltd (Ixora) is excited to announce its acquisition by ENGIE, a global leader in renewable energy. ENGIE was particularly impressed with the positive working culture of...

Rainbarrow Farm was delighted to welcome the Bridport and District branch of the U3A for a tour of its anaerobic digestion plant located in Dorset. The U3A (University of the Third Age) is a UK-wide organisation that provides retired and semi-retired individuals with opportunities to explore new interests and share skills through special interest groups. The

Ixora Energy Limited was founded in 2017 to provide a full management and operations service for eight Anaerobic Digestion (AD) plants. Ixora drew together a team with many years of experience in AD operation who had specialised skills across a number of functions. When the team came together, the plants were in the latter stages of ...

Ixora energy ltd Iceland

Downing LLP.

Our background Condote Biogas is an anaerobic digestion (AD) facility located just outside South Molton, Devon. Opened in 2015, our plant seeks to work in harmony with local agriculture and the surrounding communities. We process agricultural feedstocks supplied by nearby farmers, primarily chicken manure and sustainably grown crops. Using high-quality AD technology, the ...

As part of the Open Farm Sunday event held at Frogmary Green, South Petherton on the 9th June, we were delighted to have a stand and be able to show visitors around our gas to grid plant, Sustainable Energy Generation, which is adjacent to the farm. Around 200 people booked onto the tours and many,

As well as providing renewable energy to South Molton in Devon from our Condote Biogas plant, we are keen to support the local community. That is why we are sponsoring the South Molton in Bloom initiative.. In previous blog posts, we have covered how South Molton is a unique town that is nearly 100% powered by renewable green gas from our Condote Biogas plant.

ENGIE has acquired Ixora Energy Ltd, a leading biomethane producer based in the UK since 2017. The acquisition, secured for €64.8 million (EUR74.6 million), was made from the responsible investment manager, Downing LLP. This strategic move marks the addition of three new production units to ENGIE's portfolio, which are located in Devon and Somerset, ...
