

Jamaica renu energy solutions

Will Jamaica meet the energy policy goal of 15% renewables?

Meeting the energy policy goal of 15% renewables in the energy supply mix of by 2020 and 20% by 2030.

Synopsis of the Profile of Renewable Energy Sector in Jamaica

What is Jamaica's energy policy?

Jamaica's National Energy Policy 2009 - 2030 calls for Jamaica to realize its energy resource potential through the development of renewable energy sources and enhance its international competitiveness, energy security whilst reducing its carbon footprint. This is further emphasized in Goal 3 of that policy.

Why is energy-from-waste important in Jamaica?

Jamaica believes that energy-from-Waste can make a significant contribution to achieving renewable energy targets, ensuring security of energy supply as well as treating waste that cannot otherwise enter a waste minimization and recycling programme.

What are Jamaica's energy projects?

Diversify energy sources by type and geographic location Engage in multilateral, regional and bilateral partnerships and cooperative arrangements that best advance Jamaica's energy interests Sub-project 1 - Biomass and Biofuels (Ethanol and Biodiesel) Sub-project 2 - Petcoke Cogeneration Sub-project 3 - Waste-to-energy project

What are the barriers to electricity supply in Jamaica?

Another barrier includes the Jamaica Public Service Company Ltd. (JPS) Licence which gives this company exclusive rights to transmit, distribute and supply electricity throughout Jamaica, for a twenty (20) year period, based on the All Island Electricity License (2001).
