

Jersey electric grid system

Where does Jersey's electricity come from?

Around 95% of the electricity we supply is imported from low carbon,hydro (34%) and nuclear (66%) sources in France through three undersea supply cables. These cable links have given us the ability to virtually completely de-carbonise Jersey's electricity supply.

What does Jersey electricity group do?

Jersey Electricity Group consists of several complementary businesses beyond energy supply. Find out what else we do. Founded in 1924, Jersey Electricity has grown to become a dynamic power utility providing clean, low-carbon electricity. Learn more about the roles and responsibilities of the Board and our Board Committees

Does Jersey offer low-carbon electricity?

Whether you want a completely new heating system, to simply change your boiler, or switch to electric transport, our low-carbon electricity offers a clean and efficient solution for your every need. Jersey's move to electric is gathering speed. Join the conversation and learn more about making your own move to electric transport.

When was Jersey electricity company founded?

The Jersey Electricity Company was founded in April 1924, with a small generating station at the end of Albert Pier. Within a decade it had moved to a new, bigger power station at Queen's Road, the site of today's Powerhouse retail park and administration offices.

How does Jersey de-carbonise its electricity supply?

These cable links have given us the ability to virtually completely de-carbonise Jersey's electricity supply. The remainder of our electricity comes from the Government-owned Energy from Waste Plant and since 2019 some on-Island solar PV generation.

Will Jersey's 'island plan' boost energy security?

Bosses said the plans for the 2.7 hectare site, meant electricity would be returned to the grid in a process which would "increase Jersey's energy security". The firm said the proposal - which is one of several sites it hopes to build by 2026 - supported the government's Island Plan and energy policy.
