Solar panels generate direct current or DC power. The inverter changes DC power to AC power for use in homes or businesses, whether on-grid or off-grid. SunWatts is a trusted supplier of the world's best solar inverters. Use the links below to learn about solar inverters, shop for inverters and compare solar inverter brands.

Solar Inverter in Jordan. A solar inverter is a device that converts direct current to alternating current as the output of a PV solar panel and can be used as the commercial electrical grid or by locals or off-line electrical networks. With a solar inverter in Jordan, you can store solar energy in the form of PV (photovoltaic) cells in a battery.
