

Korean tire giant Hankook & Co. announced Thursday a 9 billion won (\$6.5 million) investment in JR Energy Solutions, a local secondary battery electrode foundry firm, in its first foray into the burgeoning EV battery market.

Korean tire giant Hankook & Co. announced Thursday a 9 billion won (\$6.5 million) investment in JR Energy Solutions, a local secondary battery electrode foundry firm, in ...

Battery contract producer JR Energy Solution said on Wednesday that it has started construction of its first factory. The factory will manufacture the cathode and anode electrodes for its battery customers. JR Energy Solution will spend 40 billion won initially and 305.6 billion won in total up to 2027 on the factory.

Battery contract producer JR Energy Solution said on Wednesday that it has started construction of its first factory. The factory will manufacture the cathode and anode electrodes for its battery customers. JR ...

Being the world's first designated battery (electrode) foundry company and as a strategic partner, JRES supports clients' growth in the battery market by providing high-quality electrodes, sharing advanced production data through AI solutions as well providing a turnkey solution for establishing electrode manufacturing facilities when needed.

JR Energy Solution provides the total smart factory system specialized in the battery system including electrode manufacturing, cell assembly, modules, and packs. We analyze the initial product, design a manufacturing plant including the logistics flow mechanism, analyze the production requirements (specification), identify the overall process ...
