Is Kazakhstan a major supplier of uranium and titanium?

Kazakhstan is a major global supplier of both uranium and titanium. It also holds 2% of world nickel reserves,but has,for now,a negligible share in its global output. The country has also yet to tap its deposits of lithium,another key metal,but exploration is underway.

Why is Kazakhstan a dependable supplier of critical materials?

The former Soviet republic promotes itself as a dependable supplier of the majority of critical materials outlined by the European Union,at a time when Russia has threatened to curb exports and China is tightening control over rare earths. Kazakhstan has signed deals with the European Union and Britain on the supply of critical minerals.
