Who is Ormat Technologies?

global. diverse. sustainable. Ormat Technologies Inc. - At Ormat Technologies, Inc. , we're always on; delivering renewable power and energy solutions to our customers

What makes Ormat a reliable energy provider?

Clean, reliable energy solutions provided from geothermal power, recovered energy, as well as energy storage solutions, is our expertise, commitment and focus. Ormat has harnessed nature's renewable energy for over five decades.

Who is energycom Ormat systems?

EnergyCom Ormat Systems LTD. At Ormat Technologies we're always on; delivering renewable power and energy solutions to our customers around the clock and around the world, Since 1965. Clean, reliable energy solutions provided from geothermal power, recovered energy, as well as energy storage solutions, is our expertise, commitment and focus.

What happened to Ormat Technologies?

Ormat Technologies was founded in 1994 as a US subsidiary of Ormat Industries. Following the initial public offering, Ormat Industries was restructured as a holding company that was still listed in the exchange, while shifting all its operations to the subsidiary Ormat Technologies.

What is Ormat Olkaria III geothermal power?

The capacity of the Ormat Olkaria III geothermal accounts for 22% of Kenya's geothermal capacity and 6% of the country's total power capacity, thus providing renewable energy at low-cost and contributing to reductions in GHG emissions. The Olkaria region was first recognized as a promising source of geothermal power in the 1960's.

How many power plants does Ormat have?

The company has built over 190 power plants and installed over 3,200 MW. As of January 2021 it owns and operates 933 MW of geothermal and recovered energy based power plants. Ormat has supplied over 1000 turbochargers worldwide: North America, South America, Europe, Australia, and Asia.

Kenya is endowed with vast high-temperature geothermal resources that are largely untapped. These resources, estimated to be in excess of 10 GW, are located within the Kenya rift, which forms part of the eastern branch of the East African Rift System (EARS). Geologically, the EARS is an intracontinental divergence zone where rift tectonism accompanied by intense volcanism ...
