

Kes solar contact details Sri Lanka

How much does a solar system cost in Sri Lanka?

Residential solar installations in Sri Lanka typically start at around 500,000 LKR to 750,000 LKR for basic setups. With a budget of 500,000 LKR, you can generally expect a solar system producing approximately 2 kW to 3 kW of power. If you have a budget of 750,000 LKR, the system size might range from about 3 kW to 5 kW.

How does a solar system work in Sri Lanka?

Solar Panels: These are the most visible components of a solar system. Solar panels convert sunlight into direct current (DC) electricity. The efficiency of these panels can vary, but in Sri Lanka, with its average solar irradiation of around 4.5 to 5.5 sun hours per day, solar panels can generate significant amounts of electricity.

How long does a solar installation last in Sri Lanka?

The payback period for industrial solar installations in Sri Lanka typically ranges from 3 to 4 years. Efficient project designs and use of high-quality components contribute to favorable ROI. The upfront costs for a factory-sized solar installation can be significant.
