

What makes kraftfeld a great solar company?

The ability to take a solar project from start to operation is our greatest asset today. Since 2009 Kraftfeld has built the expertise and networks necessary to develop, execute and operate solar parks. Today this is the basis for the successful expansion of our own portfolio.

How does the hydrocarbons sector contribute to Equatorial Guinea's economic growth?

It is simple, the hydrocarbons sector contributes 90 percent of Equatorial Guinea's GDP and with that in mind, to drive economic growth, we have focused on creating an enabling environment for industry players.

Where is kraftfeld based?

Kraftfeld has offices in Vienna, Budapest, and Bucharest. An in-house trading team sells the power produced by its assets via PPAs and on the spot market. Rolf is a co-founder of Kraftfeld and in charge of deal structuring and financing. He is an experienced investment professional who has worked with international banks.

Could gas-to-power help Equatorial Guinea develop a regional power economy?

For Equatorial Guinea, which enjoys a strategic position in the Gulf of Guinea, gas-to-power offers the potential to anchor the development of a regional power economy. Given its current energy output and relatively small population of 1.4 million, the country has been able to meet domestic energy demand with self-produced power to date.

Should oil companies lift LNG cargoes in Equatorial Guinea?

As a result, Equatorial Guinea is inviting independent and state-backed oil companies to lift LNG cargoes, with incentives of an attractive royalty scheme and strong government support.

What is kraftfeld's track record?

Kraftfeld's track record includes projects with an investment volume for the period of more than 300 million Euros. Today Kraftfeld manages its solar assets and works to expand its portfolio.

OSLO, April 4, 2024 - Oslo-listed Panoro Energy has reached an agreement with the government of Equatorial Guinea on the key terms and conditions for the award of offshore Block EG-23, the company announced on Thursday. Block EG-23 is located north of Bioko Island and adjacent to the producing Alba gas and condensate field. It covers a surface of approximately 600 square ...

"In August 2024, Equatorial Guinea signed a bilateral agreement with Nigeria to jointly construct the Gulf of Guinea Gas Pipeline Project to supply gas feedstock to the Gas Mega Hub". The hub's output can also provide in-country poverty relief and climate improvement -- propelling economic growth and providing fuel for clean cooking.

If we combine these with already producing wells, the future of Equatorial Guinea's energy sector is bright. We plan to maximise the Gas Mega Hub to unlock the region's massive gas reserves which remain stranded. The ...
