

Large-area photovoltaic bracket manufacturers

What is a photovoltaic power station?

As one of the solar energy applications, photovoltaic power station, also known as solar ground park, solar farm or solar power plant, is a large-scale grid-connected photovoltaic power generation system (PV system) designed for commercial power supply.

Can versol mount a photovoltaic power station?

Versol's V-Basic mounting system can be applied to photovoltaic power station in different terrain and environment. The product range includes a wide range of models and styles, and is highly adaptable.

How a photovoltaic agricultural structure can save land resources?

The photovoltaic agricultural structure is installed on the roof of the farm shed. The ground resources will not be occupied, and the nature of land use will not be changed, which can effectively save land resources. 2.
