

# Learn how to clean photovoltaic panels

How do you clean solar panels on a roof?

We advise against getting up on your roof to clean your solar panels whenever possible, but if you feel that it's necessary, opt for a safety harness or hire a professional solar panel cleaning service. Choose biodegradable soap. Collect rainwater for use when feasible. What is the best thing to clean solar panels with?

How do I know if my solar panels need a cleaning?

A drop in energy output can be an indication that your solar panels could use a cleaning. The mySunPower® app gives you complete control over your SunPower solar power system, allowing you to track and monitor your energy production in real-time. With SunPower, you'll always know exactly how well your panels are performing.

How do you clean solar panels?

Spray the panels with a hose. Knock off any loose dirt and debris, then use a garden hose with a spray attachment to rinse the solar panels and surrounding roof. This will loosen the grime and make it easier to scrub the panels clean. If you have to climb to the roof for this, make sure someone is holding the ladder steady.

Should you clean solar panels without feet firmly planted?

Never clean solar panels without your feet firmly planted on a stable surface. While cleaning, it's crucial to avoid damaging any electrical components, as this could make the solar panels less effective or disrupt their operation altogether. Always weigh the safety risks and benefits before cleaning your solar panels.

Why should I clean my solar panels?

By staying informed and proactive, you can ensure that your solar panels will continue to provide efficient, eco-friendly energy for years to come. Let's quickly recap what we've covered: Why clean solar panels?: Dirty panels can reduce your system's efficiency and, consequently, your energy savings. When and how to clean: Timing is crucial.

When should I clean my solar panels?

It's recommended to clean them early in the morning or late in the evening to avoid rapid temperature changes that can occur if they're hot from sunlight exposure. Some professional services specialize in solar panel cleaning, which could be a safer option, especially if your panels are roof-mounted.
