Can be used outdoors or in the home solar power station, 110V/220V/240V output, can meet a variety of electrical needs. Multiple charging options, supporting DC6530 DC charging and USB and Type-C fast charging ports, can meet the ...

I have a 600 watt charger, and that worked perfectly. So I may shell out the \$400 or so for an EG4 "Chargeverter". That is adjustable up to 5,000 watts to take dirty unstable AC power and push clean DC directly into your batteries. It's a 48 volt device and can push up to 100 amps. That will max out my 5,000 watt generator.
