

How much electricity does Lesotho produce?

Lesotho produces about 72 MW from hydropower (Muela). It has about 150 MW peak power and imports more than 70 MW mainly from Mozambique (29% of peak demand) and 20% of its peak demand from South Africa. The electricity supply accounts only for +/-50% in the energy mix.

Who supplies electricity to Lesotho?

All power to Lesotho was supplied by ESKOM in South Africa in 1995. However, the Muela hydroelectric power station, built during phase 1A of the Lesotho Highlands Water Project (LHWP), opened in September 1998. The resulting election reduced Lesotho's previous dependence on imported electricity.

How many power stations are there in Lesotho?

Classify the power output of a power station in mega or kilowatts. In Lesotho there are six power stations: Two hydro-power stations (Muela and Mantsonyane), a hybrid diesel-hydro power station in Semonkong, solar mini-grid at Moshoeshe I international airport, Ramatsoho.

Who regulates the electricity sector in Lesotho?

From August, 2004 until April, 2013 the Authority was mandated with regulating the electricity sector. In 2007 the Government decided that the Lesotho Electricity Authority (LEA) should be transformed to be a multi-sector regulatory body assuming additional powers to regulate urban water and sewerage services in the country.

Who is responsible for Energy Management in Lesotho?

According to SE4ALL report for Lesotho, The Ministry of Natural Resources through the Department of Energy is responsible for the overall administration and coordination of energy in Lesotho.

Who owns Lesotho Electricity Corporation (LEC)?

Lesotho Electricity Corporation (LEC) generates, transmits, and distributes electricity. The company also owns and operates hydro power stations. LEC is wholly owned by the Government of Lesotho (GoL). The Basotho Enterprises Development Corporation (BEDCO) is a parastatal of the Government of Lesotho.
