

Liberia outdoor solar panel

How many MW does easy solar have in Liberia?

Since establishing operations in Liberia in 2018, Easy Solar has installed 0.63 MW in solar capacity and established over 7,000 energy service subscriptions, providing approximately 50,000 people with energy access in Liberia.

How many people in Liberia have access to electricity?

Fewer than 1% of rural Liberians have access to electricity. LIB Solar focuses on providing reliable, safe electricity to these communities by mobilizing communities instead of selling to individual customers. Each community receives high-quality solar systems that provide lighting and phone charging.

What is the sustainable power source in Liberia?

In Liberia, sustainable power is harnessed from tight-knit communities to provide life-changing products and services, starting with access to solar electricity. Electricity creates opportunities -- opportunities to learn, communicate, start a business, and build a better life.

How will a financed project help Liberia?

The financed project will help to improve the affordability of off-grid energy products in Liberia and in the long term support higher standards of education, increase gender equality and create new employment opportunities in the country through productive use of electricity.

Where can I find more information about easy solar?
