

It wasn't until recently when the Liechtenstein government has ventured into solar energy production. It uses photovoltaic panels that are mounted on buildings in order to generate solar energy. Therefore, there are no solar power plants yet in Liechtenstein. The biggest solar PV installation in the country is currently able to generate 112 KWp.

Solar Products Distributors Distributors are those companies working as big warehouses that served as the middlemen between the consumer/customer and the manufacturer. Typically, in distribution, a company is handling the sourcing, stocking and logistics but nowadays they are also helping manufacturers in product designing and solving other business conflicts. Aside ...
