

Longi 660w photovoltaic panel size

Does Longi have a second generation BC panel?

"Longi's first-generation BC products were primarily positioned for the rooftop market, but the second generation of BC is entirely different," the company said in a statement. "The Hi-MO 9 panel is mainly positioned for the ground-mounted utility market."

Is Longi better than IBC?

Additionally, BC technology can be combined with p-type wafers, for which Longi has substantial production capacities, giving it an advantage over the more common IBC technology. In March, Longi launched its Hi-MO X6 Explorer and Hi-MO X6 Guardian modules, and last week it introduced the Hi-MO X6 Scientist panel.

Is Longi based on hybrid passivated back contact (hpbc)?

Chinese solar module manufacturer Longi has unveiled a new module series based on its proprietary hybrid passivated back contact (HPBC) cell technology. "Longi's first-generation BC products were primarily positioned for the rooftop market, but the second generation of BC is entirely different," the company said in a statement.

What is Longi p-type Interdigitated Back-Contact (IBC) technology?

It previously said it's an extension of p-type interdigitated back-contact (IBC) technology that combines the structural advantages of PERC, TOPCon, and IBC solar. Additionally, BC technology can be combined with p-type wafers, for which Longi has substantial production capacities, giving it an advantage over the more common IBC technology.

What makes Longi unique?

LONGi is committed to creating the maximum value for our global partners and customers. output per unit mass. LONGi set the M2 standard of monocrystalline in the industry. And LONGi launched the M6 standard wafer in 2019 and the M10 standard wafer in this year.

What does Longi do?

At the same time, LONGi has been leading continuous changes in electric power and energy, promoting the sustainable development of the planet and mankind. It is LONGi's vision and roadmap that Earth will be completely green and self-sustainable in the first half of this century.
