Prussia for example, holding a profitable monopoly for the salt trade as many countries did, reorganized the entire mining sector to further increase the profits. Salt works in Great Britain though were quickest to adapt to the new fuel, and the country became the biggest manufacturer and also consumer of salt.

Holding their bodies in strange positions (a banana bend), going rigid and standing on their tip toes. Seeming vacant and not responding to instructions. It can take a huge amount of effort and concentration to hold on. Your child may get cross if you interrupt them at this point or seem "unreachable". Going into denial.
