

Chi &#232; Green Enesys. Green Enesys Group GmbH &#232; uno sviluppatore internazionale, fondato nel 2009 con sede legale in Svizzera, impegnato nella realizzazione di impianti per la generazione di energia da fonti rinnovabili ...

The first Integrated Environmental Authorisation for an off-grid Green Hydrogen and E-methanol plant in Spain has been obtained by our long-standing partner, Viridi RE Group. Our SolWinHy C&#225;diz project, located in Arcos de la Frontera, is a groundbreaking development, operating entirely off the grid and powered by a 54 MW wind farm and a 165 MWp photovoltaic installation.

Using off-grid, green energy from a hybrid solar and wind plant, we aim to produce 345,000 tons of green methanol by 2030 across eight projects in development. Benefits Green methanol projects provide a sustainable fuel alternative, supporting the decarbonization of both industry and transport, while offering strong investment opportunities.

The six-megawatt electrolyzer facility at the heart of Luxembourg Hydrogen Valley (LuxHyVal) is planned to be built in Bascharage's industrial park. Enovos and LuxEnergie, both subsidiaries of Encevo Group, ...

Despite the lack of global commitment to decarbonize maritime, there is a movement on a regional level, like in the European Union. The EU, as part of its 2050 net-zero target, has been more ambitious in setting emissions reduction and clean fuel targets for maritime, by introducing several new regulations, out of which three are quite important and will have long-term effects ...
