Mainspring Energy is a fast-growing company now hiring for great energy industry jobs with lots of room for growth. Open Roles. Click on any link listed to learn more and apply. We look forward to hearing from you. 3601 Haven Avenue Menlo Park, CA 94025 (opens in a new tab) Company. Careers; Our Company; News & Perspectives;

"Mainspring's technology will help support our move to net zero carbon energy," said Chris Thurston, head of renewable energy projects for Lineage. "Mainspring generators improve energy independence and buffer our growing use of solar power, while offering the potential future use of zero carbon fuels like green hydrogen and others.

Mainspring Energy is a technology company focused on providing clean and reliable power solutions through its innovative Mainspring Linear Generator. Founded with the vision of supporting a net-zero carbon grid, Mainspring aims to deliver local power generation that can adapt to various fuel types and operational needs.

At Mainspring we believe the fastest path to the net-zero carbon grid is vastly increasing the amount of solar and wind power while building a supporting clean energy system that ensures affordability and multi-day, cross-season resilience.

Mainspring Energy's new linear generator uses a low-temperature reaction of air and fuel to drive magnets through copper coils to efficiently produce electricity with near-zero NOx emissions. The linear generator offers customers an unmatched combination of high electrical

Explore Mainspring's capabilities through our resources highlighting fuel-flexible, dispatchable power solutions. See how we drive cost savings, carbon reduction, and accelerate the path to a net-zero carbon electric grid. ... Clearing the Air ...

Mainspring's linear generators are fundamentally different from the reciprocating-engine-based generators now on the market. Instead of pistons driving a rotating mass to generate electricity, Mainspring's 250-kilowatt units ...

MENLO PARK, Calif., July 19, 2022 -- Mainspring Energy announced today that it has entered into a memorandum of understanding ("MOU") with leading U.S utility American Electric Power (AEP) to pilot Mainspring's linear generator technology in Oklahoma. The pilot project will provide important real-world system experience as AEP evaluates a ...

The Mainspring Energy Partner Program welcomes strategic partners, resellers and referral partners. These are trusted experts with relevant domain expertise in distributed energy generation or in engineering, procurement,

and construction of energy infrastructure and microgrids. We invite potential partners to complete an application for ...

Mainspring Energy: hiring world-class employees on a mission to bring affordable, dispatchable, clean energy to the world. Welcome to Mainspring At Mainspring, we believe that innovation and technology will play a key role in transforming the global energy industry to address the growing threat of climate change and the need for affordable ...

MENLO PARK, CA - OCT. 22, 2024 - The U.S. Department of Energy Office of Manufacturing and Energy Supply Chains has selected Mainspring Energy, manufacturer of innovative, fuel-flexible, power generators, for an award of \$87 million under the Bipartisan Infrastructure Law's Advanced Energy Manufacturing & Recycling Grants Program. This selection will support the ...

MENLO PARK, Calif., Sept. 21, 2022 -- Clean power generation provider Mainspring Energy Inc. today announced the final close of its Series E financing at \$290 million. On May 24th this year, simultaneously with announcing a major commercial sales deal, Mainspring disclosed it had completed its first close of the Series E at \$150 million. The ...

Mainspring Energy today unveiled its first reseller partners in its newly formed reseller sales channel, significantly extending the company's market reach and accelerating deployments of its ...

4 ???&#0183; About Mainspring Energy, Inc. Mainspring seeks a new approach to generating clean, resilient, and affordable electricity. Through high-efficiency methods of converting fuel to electricity, the company has developed a prototype of their first linear generator. Mainspring's diverse and talented team is committed to addressing the growing threat ...

Mainspring Energy is engineering advanced technology by developing a prototype of a linear generator that converts fuel to electricity. Mainspring was founded in 2010 by three Stanford engineers- Shannon Miller, Adam Simpson, and Matt Svrcek.

The Mainspring Linear Generator provides cost-competitive, low emission power generation for continuous 24/7 electrification and energy operations ... Energy Project Success & Resources. Mainspring customers are achieving fast ...
