MAKEEN Energy's universal controller MUC is an intrinsically safe, programmable logic controller and a human-machine interface (HMI). It is the standard automatic control and supervision unit for all MAKEEN systems and equipment in LPG cylinder filling plants.

There's a lot of opportunities once you're in, and when you understand what you're doing it's very fulfilling. Coming as an intern or trainee, you have very little professional experience. MAKEEN Energy is a really good option in terms of training and enhancing your skills. For a young professional, it's really a good opportunity.

With more than 80 years of experience in handling gas, we're the world's number one destination for LPG cylinder filling. We're also the perfect partner for many cryogenic projects, including liquefaction and bunkering of natural- and biogas.

With more than 80 years of experience in handling gas, we're the world's number one destination for LPG cylinder filling. With our extensive knowledge, we offer turnkey solutions from the planning, to engineering, to facility management of LPG projects.

MAKEEN Energy's newsletter goes out to subscribers across the world every 6-8 weeks. It is available in English, French, Spanish and Portuguese. Sign-up here MAKEEN Energy A/S Alsvej 21. 8940 Randers SV. Denmark Tel +45 8740 3000. info@makeenenergy VAT ...

For more than 85 years, we have developed expert solutions for the energy industry. We have innovated technologies and services that ensures our customers' sustained growth and competitiveness in an ever-evolving market.

MAKEEN Energy's scope in the project was to deliver the ship bunkering part of the facility. This installation includes a pump skid and bunker skid, as well as all the needed piping and electrical works. The fixed storage unit allows inland ...

MAKEEN Energy is a global leader in the development and supply of technological solutions for the energy industry. With over 3,900 employees in offices in 23 countries and customers and operations in over 140 countries, we are very aware of our responsibility towards our planet, society and nature.

MAKEEN Energy is a global, market-leading corporation in the energy industry. We are determined to play

Makeen energy a s Suriname

an active role in the sustainable transformation of the energy market, and this is why we develop responsible energy solutions that make a difference for people and planet. We do this by enabling our partners to embrace the

In MAKEEN Energy, there is a huge amount of freedom. If you feel something could benefit the company, there will be no objection to going ahead with it. Of course, this also requires a high level of responsibility, since we always have to consider the current projects and various deadlines over the development of "nice to have" features.
