

# Maldives soltec company

Who is Soltec?

At Soltec we are specialists in photovoltaic projects equipped with solar trackers, striving on a daily basis to build a future free of polluting emissions. Soltec was founded with the aim to create a clean, sustainable and fair world based on efficient photovoltaic power generation.

What is the Maldives solar project?

The Maldives solar project is a 36 MW solar power project and 50 MWh of battery energy storage solutions development across various islands in the Maldives. It also includes grid modernization for the integration of variable renewable energy with the grid, which will be financed under the proposed AIIB loan.

What makes Soltec unique?

Since its creation in 2004, Soltec has grown to become a fully integrated company within the solar power industry. Soltec has clearly differentiated capabilities, making us a unique company within an industry which is constantly evolving worldwide and has the potential to change the electrical future of society.

Why is Soltec a sustainable company?

Soltec's activity, sustainable since its conception in 2004, has a firm purpose: to create a clean, sustainable and fair world through energy. How simple actions can make a difference and contribute to a more sustainable and environmentally responsible future. This is how we do it at Soltec.

Should investors invest in sustainable solar projects in the Maldives?

In 2014, the first 1.5 MW solar project under ASPIRE only had four investors bids, and resulted in a high power purchase price (PPA) of 21 US cents per unit of electricity, indicating a lack of interest from investors in investing in sustainable projects in the Maldives.

Will a 5 MW solar installation make Maldives a popular destination?

Now, one of the first sights for any of the 1.7 million tourists visiting the Maldives will be that of the 5 MW solar installation on the highway linking the airport island to Male and its satellite town of Hulhumale.

In 2022, 63 investors expressed interest in a major solar project in Maldives, and a record low price of 9.8 US cents was received.<sup>17</sup> In the words of the World Bank, "moving from a fossil-based to a renewable-based energy model is the best way to make electricity cheaper for everyone, reduce the fiscal risks and protect this island paradise ...
