What is the EP Cube?

The EP Cube is a flexible and intelligent all-in-one home energy storage solution for new and existing solar installations. With unrivalled flexibility and intelligent software management, it is designed to offer a quick and easy installation, simplified logistics, and cost-savings all round to make life easier for homeowners and installers.

The EP Cube hybrid inverter allows up to 16A per PV string current, and supports up to 4 MPPT connections, enabling greater PV panel connectivity so as to transform more solar energy into electricity for energy storage. EP Cube helps you store electricity from the grid when the price is lower, reducing costs and realizing automatic storage.
