How much will MasTec buy IEA?

MasTec has entered into agreements with various IEA stockholders, which collectively own approximately 35% of IEA's outstanding stock, to vote their shares of IEA common stock in favor of the transaction. Based on estimated IEA net debt levels at closing, the total transaction consideration will be approximately \$1.1 billion.

What services does MasTec offer?

MasTec provides construction and program construction management and EPC services for the full range of energy transition projects including renewable fuels, carbon capture, hydrogen, and other emerging technologies. Introducing MasTec EVi - Electric Vehicle Charging Solutions for residential, dealerships, and fleet hubs.

How many MasTec shares will IEA issue in 2022?

MasTec expects to issue approximately 2.8 million MasTec shares in the transaction. IEA is reaffirming its expectation that full year 2022 revenue will range between \$2.3 to \$2.5 billion, with net income ranging between \$45 to \$51 million, adjusted EBITDA (a non-GAAP measure) ranging between \$140 to \$150 million.

Why did MasTec update its guidance for 2022?

MasTec also announced today that it is updating its annual guidance for 2022, primarily due to expected higher levels of costs during the second half of the year. The Company is not adjusting its guidance expectation for the second quarter. Updated 2022 guidance also excludes any effects from the IEA acquisition.
