What is a solar racking mounting bracket?

Mounting brackets are heavy-duty equipment, usually made from stainless steel or aluminum. All solar racking and mounting products, whether for the rooftop or ground, must meet strict guidelines to ensure durability and structural integrity to withstand high winds and weather events.

What are the best solar mounting and racking brands?

The top two high-quality solar mounting and racking brands are: Originally, IronRidge supported mostly small, off-grid projects. But today, IronRidge is known for its uniquely shaped and durable XR rail series for pitched roofs. They have equally great options for flat roofs and ground mounts, as well.

What are solar panel mounts & racks?

Solar panel mounts and racks are equipment that secures solar panels in place. Mounting allows the panels to be adjusted for optimal tilt, which can be based on latitude, seasons, or even time of day -- to ensure maximum solar energy production.

How much does a 6kW Solar System cost?

Including racking and mounting, an average 6kW solar system would cost about \$18,000 given the US average solar panel cost of about \$3.00 per watt as of January 2023. After applying the federal solar tax credit of 30%, that works out to \$12,600.
