

What is the global microgrid market size?

The global microgrid market size was valued at USD 9.88 billion in 2023 and is projected to grow from USD 11.24 billion in 2024 to USD 37.35 billion by 2032, exhibiting a CAGR of 16.19% during the forecast period. Asia-Pacific dominated the microgrid market with a market share of 43.02 % in 2023.

Why are key market players investing in Microgrid technology?

Key market players are heavily investing in research and development to innovate and improve microgrid technologies including advancements in energy storage systems, smart grid technologies, and integration of renewable energy sources.

Who are the major players in the microgrid market?

The microgrid market is moderately consolidated. Some of the major players include Hitachi Energy Ltd, General Electric Company, Siemens AG, Eaton Corporation PLC, and Schneider Electric SE. Need More Details on Market Players and Competitors?

Who are the major players in the Asia-Pacific microgrid market?

Such developments strongly support the dominance of the Asia-Pacific microgrid market in the coming years. The microgrid market is moderately consolidated. Some of the major players include Hitachi Energy Ltd, General Electric Company, Siemens AG, Eaton Corporation PLC, and Schneider Electric SE.

How is the microgrid market segmented based on grid type?

Based on grid type, the microgrid market is segmented into AC microgrid, DC microgrid and hybrid. The hybrid segment is set to expand at a CAGR of over 20.9% through 2032. Growing adoption of solutions offering substantial economic advantages by reducing energy costs and providing financial resilience is fostering the product demand.

What are the key factors affecting the microgrid market?

The microgrid market is expected to have a robust growth during the forecast period, primarily due to two main factors, i.e., the global demand for clean energy generation and a self-sufficient source of power generation in times of crisis or grid disconnection.

When sizing the remote microgrid market, definitional issues often come into play due to regional dynamics. An updated global market forecast is expected to be published by Navigant Research in 3Q 2019. The Asia ...

For example, a major Asian refinery identified power outages as their primary reliability concern, highlighting the growing importance of microgrid solutions in this sector. Mining Operations ...

The global Microgrid Market size in terms of revenue was estimated to be worth \$37.6 billion in 2024 and is

Microgrid sector leader

poised to reach \$87.8 billion by 2029, growing at a CAGR of 18.5% during the forecast period. ... The ...

Microgrids are small-scale electricity networks. As of late 2020, more than 1,600 microgrids were opening in the U.S., generating more than 11 gigawatts of electricity. The cost to set up a microgrid ranges from a few ...

EDF, a global leader in low-carbon energy solutions with footprint in over 30 countries, has closed an equity investment in Standard Microgrid, a leading Solar Microgrid developer based in ...

The global microgrid market size was valued at USD 9.88 billion in 2023 and is projected to grow from USD 11.24 billion in 2024 to USD 37.35 billion by 2032, exhibiting a CAGR of 16.19% during the forecast period.

...

5 ???· While traditionally known as the heartland of oil and gas, Texas has recently emerged as a leader in renewable energy. Over the past few days, clean energy sources have ...

Boston, MA, July 17 th, 2023 - Schneider Electric, the leader in the digital transformation of energy management and automation, today announced its number-one ranking in the inaugural Guidehouse Insights 2023 Microgrid ...

The microgrid market size exceeded USD 17.8 Billion in 2023 and is poised to showcase around 20.5% CAGR from 2024 to 2032, driven by the rising energy resilience and reliability coupled with global shift towards renewable energy ...
