

Micronesia sonic energy solutions

eKoEN Solutions. News. More. Energy Monitoring Solution-eKoEN. Light but Powerful. The eK Mini Power Sensor measures feeder current, voltage, power factor, wire temperature, and other information in a non-invasive way. It can also be used with other sensors, using data analysis to assist users in monitoring equipment, discovering abnormal power ...

Energy Plant Solutions also specialised in the replacement of existing steam and compressed air soot blowers with sonic horn solutions. Conventional soot blowers are expensive and require significant maintenance and associated costs to keep running. They also use expensive steam, or large volumes of compressed air to operate them effectively.
