

# Micross hi rel power solutions Syria

Complementary to our hermetic hybrid DC-DC converters, Micross Hi-Rel Power Solutions" high-reliability and space EMI filters are designed for MIL-STD-461 compliance. Our EMI filters are manufactured on a fully qualified MIL-PRF-38534 line and offered in a range of input voltages and packages. US DoD DLA QPLs are also available.

In this webinar, industry experts in hi-rel power electronics design, packaging, testing, and qualification of hybrid and space-grade PCB DC-DC power supplies, will provide the latest options and the best practices in realizing the optimal power suppliers for today's high-reliability applications. Recorded May 2nd, 2024. [View Now](#)

Micross Hi-Rel Power Solutions Rad-Hard PCB based DC-DC power supplies include all key features to directly interface with satellite platforms and are tailored to the customers power requirements. Micross provides a range of standard platforms based on a general design philosophy which can be tailored to the customer's program requirements.

Melville, NY (May 4, 2022) - Micross Components, Inc. ("Micross"), a leading global provider of mission-critical microelectronic components and services for high-reliability aerospace, defense, space, medical, energy, industrial, and other applications announced the expansion of its Hi-Rel Components business with the acquisition of the High-Reliability Discrete Diodes and ...

Hi-Rel Power Solutions - Ballerup, DK; Component Modification; CMS - Crewe, UK; \$134.3M DoD Contract Expands Micross Advanced Interconnect OSAT Capabilities in the US Press Release. Micross has been awarded up to \$134.3 million by the DoD under the IBAS Cornerstone RESHAPE program to develop trusted, pure-play and open-access Advanced Packaging ...

\$134.3M DoD Contract Expands Micross Advanced Interconnect OSAT Capabilities in the US Press Release. Micross has been awarded up to \$134.3 million by the DoD under the IBAS Cornerstone RESHAPE program to develop trusted, pure-play and open-access Advanced Packaging capabilities and capacity for low-volume/high-mix production of secure 2.5/3D ...

Micross hi-rel RF solutions brings technology together to solve the most demanding RF and microwave semiconductor requirements of the Space, Aerospace, and Defense Industries. ... In this webinar, industry experts in hi-rel power electronics design, packaging, testing, and qualification of hybrid and space-grade PCB DC-DC power supplies, will ...

Maximizing DC-DC Power Supply for Space Webinar Recording. In this webinar, industry experts in hi-rel power electronics design, packaging, testing, and qualification of hybrid and space-grade PCB DC-DC power

## Micross hi rel power solutions Syria

supplies, will provide the latest options and the best practices in realizing the optimal power suppliers for today's high-reliability applications.

Hi-Rel Power Solutions - Ballerup, DK; ... Press Release. Micross Hi-Rel Diodes facility in Reynosa, MX, less than 4 miles from the US border, was completely upgraded with the latest fab equipment, new infrastructure, and cleanrooms, providing expanded capabilities for custom low-rate production, as well as high volume full-rate production. ...

In this webinar, industry experts in hi-rel power electronics design, packaging, testing, and qualification of hybrid and space-grade PCB DC-DC power supplies, will provide the latest options and the best practices in realizing the optimal power suppliers for today's high-reliability applications. ... Micross Hi-Rel Diodes facility in Reynosa ...

The HiRel DC-DC converter business is a leading provider of high reliability DC-DC power conversion solutions for the toughest environments, including outer space, and will operate under the Micross Hi-Rel Products ...

Micross Hi-Rel Diodes facility in Reynosa, MX, less than 4 miles from the US border, was completely upgraded with the latest fab equipment, new infrastructure, and cleanrooms, providing expanded capabilities for custom ...

Modernization of Near-Shored Hi-Rel Diodes Foundry and Manufacturing Operations Press Release. Micross Hi-Rel Diodes facility in Reynosa, MX, less than 4 miles from the US border, was completely upgraded with the latest fab equipment, new infrastructure, and cleanrooms, providing expanded capabilities for custom low-rate production, as well as high volume full ...
