

# Minar ai power grid French Guiana

Is a solar park in French Guiana ready for green hydrogen production?

French hydrogen technologies developer HDF Energy (EPA: HDF), investment fund Meridiam and petroleum operator SARA have launched construction of a solar park with batteries and 16 MW of electrolyzers for green hydrogen production in French Guiana.

How does ceog fit with French Guiana's energy strategy?

The population of French Guiana is very quickly increasing. Guiana has to face a considerable energy deficit, especially in the west where the demographic growth is booming. By providing several MW of reliable and clean energy, CEOG fits with French Guiana's energy strategy.

What is Ai power grid (AIPG)?

AI Power Grid (AIPG) launched on December 10, 2023, with a commitment to fairness and transparency: no venture capital, no seed capital or pre-sales, and no pre-mining. This fair launch ensured an even playing field, and laid the groundwork for our future GenAI decentralized physical infrastructure network (DePIN).

Voltalia is the sole winner of the fifth period of the CRE 4 tender for non-interconnected areas for ground-based solar power plants in French Guiana. The project, called "Parc Sable Blanc", combines a five-megawatt photovoltaic power plant with a lithium-ion battery storage facility with a capacity of 5 megawatts and of 9.3 megawatt-hours.

Frequently Asked Questions (FAQ) We love helping new miners. Really. Here is a list of the most common questions asked by our fellow users. Feel free to join our Discord/Telegram and ask something - our community is always there!

The CEOG system is a combination of a solar park, hydrogen long-term energy storage and a battery (short-term energy storage) to produce 24/7 baseload power. It is the first time that a renewable energy project supplies a grid through a capacity-based Power Purchase Agreement, usually used for thermal power plants.

French Guiana is the second-largest region in France, being approximately one-seventh the size of Metropolitan France, and the largest outermost region within the European Union has a very low population density, with only 3.6 inhabitants per square kilometre (9.3/sq mi). About half of its residents live in its capital, Cayenne.

AI Power Grid (AIPG) is pioneering a revolutionary approach by offering free access to cutting-edge Large Language Model (LLM) inference and AI Art generation, validated on an immutable blockchain to ensure authenticity and security. As a beacon of democratization in AI, AIPG empowers developers by providing an efficient platform to deploy ...
