

# Moixa smart battery Morocco

What is a Moixa smart battery?

Moixa Smart Battery: Save it for later! The Moixa Smart Battery allows you to store electricity charged from your solar panels, rather than sending spare solar energy back to the grid. Take advantage of the personalised Moixa Dashboard, offering a range of live data regarding your energy generation and consumption.

Can a Moixa smart battery be retrofitted?

You can choose to have a Moixa smart solar battery retrofitted onto your existing solar panels or purchase a solar panel and smart battery package. Moixa currently offers three smart battery solutions, including the 4.8kWh smart battery and the 7.2kWh and 9.6kWh optimised battery systems.

Does Moixa support the UK energy network?

When you purchase a Moixa smart battery or optimised battery system, you can sign up for a GridShare Membership to enable Moixa to support the UK energy network when it's under pressure. It supports the grid by sharing the energy stored in your battery or utilising the available space capacity in your battery.

Is Moixa a good battery?

Moixa currently has an 'Excellent' consumer rating of 4.6 stars on Trustpilot based on 84 reviews, proving that most customers are happy with their smart battery or optimised battery system. Please note that the above Trustpilot score is correct at the time of writing in December 2021.

Do Moixa smart batteries come with a pylontech battery?

They come with a Pylontech battery that must be placed in a floor-mounted cabinet, and a Victron inverter and Moixa Hub that are wall-mounted items. How much do the Moixa Smart Batteries Cost?

How many employees does Moixa Energy have?

They have about 70 employees in London. The company originally launched the Moixa Energy brand to produce a NiMH rechargeable battery called USBCell. The batteries included a USB connector to allow recharging using a powered USB port.
