Who is Cirro Energy?

We're here for you when you need us. Cirro Energy is a trade name of Independence Energy Group and is deemed eligible as an electric supplier by the New York Public Service Commission (NYPSC). Cirro Energy is a trade name of Independence Energy Group LLC, a supplier licensed to do business in Pennsylvania (license number A-2011-2262337).

Will Mongolia prioritize the energy sector in 2024?

In 2024, energy experts and Mongolia's global partners are urging the Mongolian government to prioritize the energy sector. On December 4, after a few days of electricity shortages, the Energy Regulation Committee released a utility report tracking the previous week's energy usage. It highlighted a peak load of 1493 megawatts (MW) on November 30.

Can Mongolia sustain its domestic electricity demand?

Mongolia has the potential to sustain its domestic electricity demand through renewable energy sources such as solar, wind, and hydro. It should also view exports of renewable energy into neighboring countries as an alternative source of economic security. Energy as Electricity

How is Mongolia's Energy Security viewed?

Mongolia's energy security needs to be viewed holistically, as a function of its economy, environment, and geopolitical situation. Mongolia sits in a unique position where its energy situation is deeply intertwined with both its economy, which is mostly driven by raw material exports, and its geographic location between two major countries.

Why is Mongolian energy crisis a problem?

It has become clear that the Mongolian government, including previous administrations, has long failed to prioritize energy and that is the root cause of the problem. Mongolia's dependency on coal-based energy has been the source of political, social, and health problems.

Who is responsible for Mongolia's energy sector?

In order to ensure this, Prime Minister L. Oyun-Erdene of Mongolia has instructed Deputy Prime Minister and Minister of Economic Development Ch. Khurelbaatar and Energy Minister B. Chojilsuren to take all necessary measures." Mongolia's energy sector writ large is directly linked to Moscow's energy capacity.
