

How much solar power does Montenegro have?

Montenegro had installed solar power capacity of just 6 MW at the end of 2020. The country's solar power capacity is significantly smaller than the electrical power demand, which is currently met by the 225 MW Pljevlja thermal power plant in the north of Montenegro and two large hydropower plants, at Perućica (307 MW) and Piva (363 MW).

How much does a house cost in Montenegro?

The price for a 50-sq-m house or apartment in Montenegro starts from EUR50,000. The most inexpensive objects, with areas of 20-26 sq.m and only essential furniture and low-key repairs, cost less. Apartments on the Montenegrin coast are attractive for everyone, regardless of age and prosperity level.

What is Montenegro's rooftop PV program?

Montenegro's first attempt to support rooftop PV is the net metering program. Although the program is limited in scale, it is being implemented by the EPCG. The EPCG is also building a 100 MW solar park in partnership with Finnish utility Fortum and a floating PV power plant on the Slano artificial salt lake.

Montenegro's state-owned power utility EPCG and the Investment and Development Fund (IRF) have finalized a EUR10 million agreement to finance the Solari 5000+ 70MW project. The initiative, which has already commenced, aims to install solar systems for households and businesses across Montenegro. To date, the project has achieved an installed ...
