

Montserrat aypa power

What does aypa power do?

Aypa Power develops, owns, and operates utility-scale energy storage and hybrid renewable energy projects that assist in the decarbonization of our grid. As an independent power producer, our company was founded with the purpose of reducing our reliance on fossil fuels.

What makes aypa a great company?

We value our team members for their unique talents and abilities, and we embrace and encourage their differences in every aspect of their work -- our people are the foundation of our success. Aypa is a pioneering developer, owner, and operator of energy storage and renewable hybrid projects.

Is pediment a good investment for aypa power?

"Pediment represents a well-structured financing for a top-tier battery energy storage project," added Sven Wellock, Managing Director and Lead of Energy - Renewables & Power for ING Capital. "ING is proud to have played a leading role in supporting this effort and contributing to Aypa Power's continued growth and success."

What makes aypa power a critical asset class?

Leading the evolution of energy infrastructure, Aypa Power has redefined batteries as a critical asset class, supporting grid reliability through 30 operational or under-construction assets and a highly contracted 22 GW development pipeline. (CNW Group/Aypa Power)
