Who is Morningstar Corporation?

With over 4 million products sold in over 100 countries since 1993 -- functioning in some of the most extreme environments & mission-critical applications in the world -- Morningstar Corporation is truly "the leading supplier of solar controllers and inverters."

What makes Morningstar a good company?

It's important for us to have tested, proven, reliable components... Morningstar offers its products through a network of distribution partners. Morningstar manufactures and supplies solar charge controllers and inverters. Over 4,000,000 off-grid solar products deployed globally since 1993.

Where are Morningstar products available?

Morningstar products are available in every country of the world. If you are unable to find a local supplier, submit the form at the bottom of this page and we will recommend a supplier for you. Which best describes you or your organization? Are you working on a project/procurement and in need of assistance? How do you prefer to be contacted?

What is Morningstar Direct?

Morningstar Direct is a software platform that provides data and analytics to help professional investment managers craft new products and portfolios. Morningstar offers a single end-to-end cloud-based platform for investment advisors, known as Morningstar Office Cloud.

How did Morningstar go public?

The manner in which Morningstar went public is notable. They elected to follow Google's footsteps and use the OpenIPO method rather than the traditional method. This allowed individual investors to bid on the price of the stock, and allowed all investors equal access.

Did Morningstar buy DBRS?

In 2019, Morningstar acquired the world's fourth largest credit rating agency DBRS for \$669 million. After the acquisition, DBRS merged with Morningstar's credit rating business.
