What happened to moxion power?

The company declared bankruptcy on Aug. 12, 2024, and will now sell its assets to pay back creditors. Bay Area battery startup Moxion Power filed for Chapter 7 bankruptcy in a Delaware court on Monday. The once-buzzy company had raised \$110 million in its four-year span, but now, per the filing, its checking account is down to \$201,980.

What is moxion power?

While big legacy companies like Generac and Caterpillar are beginning to offer small battery-powered units in addition to their larger diesel generator lines, California-based startup Moxion Power is focused entirely on this new power frontier. It is building high-powered, mobile energy storage technology that can be used pretty much anywhere.

Will moxion power shut down?

Startup Moxion Power, which makes a battery-powered generator, has furloughed most of its staff and could soon shut down, according to a report from SFGate. Why it matters: The chilly funding environment continues to catch up with capital-intensive climate tech startups seeking to scale. Moxion Power didn't respond to a request for comment.
