

My country s microgrid market size

What is the global microgrid market size?

The global microgrid market size was valued at USD 9.88 billion in 2023 and is projected to grow from USD 11.24 billion in 2024 to USD 37.35 billion by 2032, exhibiting a CAGR of 16.19% during the forecast period. Asia-Pacific dominated the microgrid market with a market share of 43.02 % in 2023.

How big is the microgrid market in 2024 & 2032?

The market is further expected to grow at a CAGR of nearly 10.4% in the forecast period of 2024 and 2032 to reach a value of approximately USD 70.74 billion by 2032. The dominant region for the microgrid market is North America, accounting for a quarter of the market share.

Will Asia Pacific microgrid market surpass USD 54.5 billion by 2032?

Asia Pacific microgrid market is expected to surpass USD 54.5 billion by 2032, due to increasing energy demand, need for reliable power supply, and significant investments in renewable energy.

What factors contribute to the growth of the global microgrid market?

Low transmission losses are another factor that has been successful in increasing the growth of the global microgrid market. Microgrids produce local power and decrease reliance on long-haul lines and therefore reduce transmission losses, further catalysing the industry growth.

Where is the microgrid market located?

The dominant region for the microgrid market is North America, accounting for a quarter of the market share. Development in the region is triggered by the growing use of microgrid in defence as well as remote systems to improve cyber-attack protection.

Which countries are investing in microgrids?

Countries like Saudi Arabia and the United Arab Emirates are investing in microgrids to power remote oil and gas facilities and improve energy access in rural areas. The global market is significantly fragmented owing to the presence of a large number of large and small-scale manufacturers.
