Myanmar solar systems com

Who is Myanmar Solar power trading?

Myanmar Solar Power Trading Co.,Ltd is established in 2011 and we are one of the leading full-service providers for C & I projects, residential, industrial and large scale solar projects in Myanmar. From a single point of contact, we provide solar PV designs, calculations, consultations, installations and repair and maintenance services as well.

Is there solar power in Myanmar?

Myanmar has high solar irradiation levels in many areas, but no large-scale solar power systems have been installeddue to the largely mountainous terrain, protected areas, and limited grid system. Solar power is currently an option only for rural and off-grid applications in Myanmar.

Are solar cells used in Myanmar?

Myanmar, being a country with abundant sunshine, has the potential for solar energy. However, the high cost of solar energy limits its availability for some. Researchers have been conducting research on solar cells in Myanmarto address this issue.

The SolRx E-Series is our most popular device family. The Master device is a narrow 6-foot, 2,4 6, 8 or 10 bulb panel that can be used by itself, or expanded with similar Add-On devices to build a multidirectional system that surrounds the patient for optimal UVB-Narrowband light delivery.. US\$1295 and up
